FRIDAY, SEPTEMBER 14. 1739.

No. 1319.

Vienna, August 25. O. S.

HE long Stay of the Count de Neuperg in the Turks Camp, where he has been above this Fortnight, together with Colonel Gross, and the Interpreter Montair, is not so much owing to the Pacifick Intentions of the Grand Vizier, as to Perfidy and Mahometan Politicks.

The Count de Neuperg only went to the Enemy's Camp with a Design to confer with the Marquis de Villeneuve, who desir'd to see him, and had procur'd a Passport to go thither, and to return in Safety whenever he pleas'd. He was scarce arriv'd, but he began to smother the pernicious Designs which the Grand Vizier conceal'd under the external Appearance of extraordinary Civility, insomuch that he told him that he was dispos'd to silence the Artillery, as long as he had the Honour to have an Imperial General in his Camp; but the Count de Neuperg made him Answer, that when the Christians had a Mind to do Honour to a Person of Rank, they did not silence the Cannon but fir'd it; and that it was better for the Siege to take its Course: Whereupon he obtain'd Leave on the 8th, to send a Message to Succow, the Commandant of Belgrade, to renew the Hostilities. But that and several Days following passing, without the Count's either returning or sending any News to the Army, the Count de Wallis sent one Express to him after another, to desire him to return, or at least to let him know the Reason of his Stay; but on the 19th the Count was neither return'd to the Camp, nor had Count Wallis receiv'd any Tidings from him: A manifest Proof that, contrary to the Publick Faith, the Grand Vizier detain'd him against his Will, in his Camp, for certain Views or Reasons, which however specious they may seem, will never wash out the Stain of having violated the Law of Nations in the Person of the Count de Neuperg.

The Messenger who came to Court on the 22d Instant, was dispatch'd hither by the Count de Wallis, to know the proper Measures to be taken at this juncture; and a Conference was held thereupon at the Duke of Lorraine's Apartment, to which the Marquis de Mirepoix, the French Ambassador, was invited; and in pursuance of a Resolution then and there form'd, the Emperor dispatch'd an Order, sign'd with his own Hand, whereby his Majesty assigns the Count de Neuperg to set out from the Ottoman Army upon Sight of it; and that he might be sure to receive it, the Marquis de Mirepoix sent it under a Cover to the Marquis de Villeneuve, that he might deliver the same with his own Hand, and at the same time employ his Interest for the Liberty of an Imperial General, who went to him at his own Request, and upon the Faith of a Passport which he sent him. The 3d Day after this Express departed for the Turks Camp, the Court dispatch'd a Messenger to Paris, to acquaint the Ministry at Versailles of the inexcusable Proceeding of the Grand Vizier, in the Face of an Ambassador from the Most Christian King.

Belgrade, Aug. 15. O. S. 'Twas this Day Month that the Enemy invested this Town on the Side of Servia, and 'tis now just 4 Weeks since they began to cannonade it, but they are not a Jot more forward than they were upon the first Day. Such of their Batteries as are nearest to the Fortifications are above 400 Toises from it, and others much more; so that 'tis not surprizing that they have as yet done no Damage to the Works, except to the Bastion of St. Elizabeth, where they have made a small Breach: But were it even more considerable, the Danger would not be the greater from it, considering the Intrenchment that is made in the Neck of the Bastion, and the other Works that are made behind the Intrenchment to support it. In short, there are Intrenchments of the like Kind, in every Part where the Enemy seems inclinable to make the greatest Push; so that it may be affirm'd for certain, that the Place is, after a Month's Siege, much stronger than it was before: And Provisions are in great Plenty, and so cheap, that the Officers of the Body commanded by the Prince of Saxe-Hilburghausen, on the other

Side of the Save, have their Wine and Part of their other Provision from the Town. All the Deserters from the Enemy's Army affirm, that the Desertion continues, and that there is such a Mortality among the Soldiers, that for some time past 2 or 300 have dy'd every Day.

Leyden, Sept. 6. O. S. The two Princes of Deuxponts (or Tweybrugge, as the Dutch call them) who have study'd in this University about two Years, by the Name of the Counts de Sponheim, are set out for Paris, by the Way of Hague, Delft, Rotterdam, Gorcum, Breda, and Brüssels. The eldest, who is Prince Christian, intends to stay there incognito, by the Title of the Count de Sponheim; but Prince Frederick, who is the younger, will appear there with his Title of Prince of Deuxponts. They will spend the whole Winter at Paris, and at Spring they design to go over to England, where after they have made a short Stay, they will repass to Holland, in order to return to Deuxponts. These Princes were admired here for their Affability, and other excellent Qualities. Before they went, they made a Present of some Medals of Gold and Silver to several Persons of their Acquaintance. The Gold Medals are valu'd at 100 Ducats, and the Silver ones at 10 Ducats. On one Side are represented the Effigies of the two Princes with their Titles; and on the other Side Minerva is represented with her Attributes, and their Highnesses Arms, with this Inscription, *Nulla meis sine te quærentur gloria rebus*. They also made handsome Presents to all the Masters of their Exercises, &c.

To which it was answered, That as Mr. Macvicar produced no authentick Extract of the Lords Sentence, they could not, on a general Hearsay, or his Assertion That by the Sentence he was to be liberate that Day, immediately enlarge him, since the Lords Warrant to them was only to receive and detain him in Prison, &c. DR. ROBERT EATON'S BALSAMICK STYPTICK.

Truly prepared and sold at the Doctor's late Dwelling House, now Mr. DUTTON's in Salisbury Court, Fleet-street.

THIS Medicine restrains in a most surprising Manner, all internal as well as external Hemorrhages, i. e. it infallibly and quickly stops all dangerous Bleedings at the Nose or Gums, spitting or vomiting Blood; also the immoderate Flux of the Hemorrhoids or Menstrue; bloody Urine or Stools, bleeding of large Wounds, &c. (if used according to the plain Directions given with it) as will appear by the Certificates of several Eminent Physicians, and in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians, a little before his Death.

It keeps good for many Years, at Sea or on Shore, at Home or Abroad, i. e. in all Climates therefore must be universally Useful.

The Doctor not only obtained his Majesty's Letters Patent for the sole Vending of this most Excellent Medicine; but also a Clause in a late Act of Parliament, exempting this Medicine from the Inspection of the Censors of the College of Physicians, to which all other Medicines are liable.

N. B. Some of the Apothecaries prepare a Styptick from a Prescription of Helvetius, and use it in the Room of Dr. Eaton's; but whoever tries both, will soon be persuaded that Our's exceeds theirs in all Respects, in a most eminent Degree.

Sold, by Licence, at Garraway's Old Shop, Practical Scheme, at the Royal Exchange; Mr. R. Bradshaw's Warehouse behind the Royal Exchange; Mr. John Potter, Chymist, in Bartholomew Close; Mr. William Evans, Bookseller, in Bristol; Mr. Hammond, Jun. Bookseller, at York; Mr. Roe, Bookseller, in Derby; Mr. Raikes, Printer, in Gloucester; Mr. Dicey, Printer, in Northampton; Mr. Thomas Greenhill, Mercer, at Bath; Mr. Abree, Printer, at Canterbury; Mr. Howard, an Apothecary, at Kidderminster; Mrs. Trobridge, a Shop-keeper, in Exeter; Mr. Hallifax, an Apothecary, at Brackley; Mrs. Unett, a Bookseller, at Wolverhampton; and Mr. Bryan, a Printer, at Worcester.

This Day is published,
(Price One Shilling)
LETTERS concerning Poetical Translations, and Virgil's and Milton's Arts of Verse, &c. printed for J. Roberts, in Warwick lane.

Concerning Gleet and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stagnant Gleet and Seminal Weakness, whether occasion'd by too severe purging for Venereal Injuries, Strains, Pollution sui, or any other Cause whatever, and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Heedick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Confusion, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stagnant Gleet, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diets, Incontinency of Urine, or Difficulty of holding their Urine, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by using only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Cure after having for many Years been experienced never to fail perfectly curing the most Stagnant Gleet known, in a few Days, without Difficulty or Trouble, as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which almost instantly cures, brings to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses and Disorders of Constitution of any Kind, and particularly through the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inform that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleet or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very efficacious, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and those All who ever took it for any of the above-mentioned Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radcliffe's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is entirely eradicated or not.

Note. Ask only for a 6 s. Pot of Balsamick Electuary.

The GRAND SPECIFICK for Cleaning and Strengthening the Reins, &c.

A Medicine that hath gain'd so much Credit, for these many Years it has been published, that not one of the many Pretenders to cure the like Cures, but at all hinder'd the just Reputation this first and only Specifick for these Purposes, hath obtain'd, by its most noble Effects, for it doth not only cure such difficult Cases, which no other Medicine can: But in every ordinary Case, one Bottle will do more real Good than four, that are sold by any of the common Pretenders, as has been sufficiently attested by many Persons of Worth and Reputation that have found the desired Effects, and declared it to Mr. Sandwell.

It may be certainly depended on as absolutely efficacious for carrying off, by Urine, safely and speedily, all the Effects of secret Injuries, Remains of perniciously unskillfully prepared Mercurials, Gleet or Weaknesses, thro' tedious or ill-managed Cures of the Venereal Disease, or from Self-pollution, indurate Coition, &c.

Also any Weaknesses of the Vessels from Wrenches, Strains, Blows, or Falls, and all other Obstructions in the Urinary Passages, even Stranguries, Ulcers, &c. are perfectly cured by it, be they of ever so long standing; which Reliefs all Ailments are, in Part, discovered by these following Symptoms, viz. Weakness and Pain in the Back, a Sharpness in the Urine, its strong Smell, Films or Hairs as it were floating about in it, and, in some, too frequent Occasion to make Water.

This noble Specifick is also of singular and very extraordinary Use and Efficacy, where there is any Gravel, or small Stones, Silice, or any other Matter that obstructs the Urine, bringing all away in a few Times taking, with Safety, and to the very great Satisfaction of the Patients, as has been happily experienced by great Numbers of both Sexes, and particularly by a Gentleman, whose Case has so often been mentioned in this Advertisement, by a Certificate of his Case, who, on taking but a little of this noble Specifick, voided above an Ounce of Gravel, and was cured of an insupportable Pain about his Loins, &c. by a short Continuance of it.

It also strengthens and recovers, after a particular Manner, all Relaxations of the Vessels, confirms the Parts, bringing it into Order, and thereby perfects the Cure to Admiration. It is a very pleasant Medicine, and will be found of uncommon Benefit to Mankind, beyond Expectation, which is the Reason of its being made publick, and to obviate the Ignorance of Pretenders in all the difficult Cases above-mentioned.

One Bottle, in most Cases, is sufficient for a perfect Cure, as you will see by the Directions given with it.

Sold at 7 s. 6 d. the Bottle, at Mr. Sandwell's Toy-shop, at the Griffin, the Corner of Bucklersbury, in the Poultrey.
